Parameters to analyse
(implemented in each proficiency test)

20M88.1 - Expectorations - sent in January 2020 - Refrigerated parcel

Bacteriology

20M88.2 - Expectorations - sent in August 2020 - Refrigerated parcel

Bacteriology

PARTICULARITIES

Bacteriology: bacterial count, identification of the bacterial strains and antibiogram.

Gram staining – resistance phenotype: the results observed by laboratories will be presented in the test report.

The Bartlett score will be provided in the instructions of each test.

The documents of this External Quality Assessment are not translated into English at the time of writing the catalogue; however it is planned to translate them during the 2020 scheme.
